

Novina
Authentic Musical Instruments

Catalogue

Novina is a Dutch wholesaler in authentic musical instruments.

With this catalogue we proudly present an updated variety of instruments from eight different countries from all over the world. All instruments are handmade according to traditional working methods.

From the beginning, we have been in close contact with our producers. Each year we try to visit them to discuss future plans. It is our goal to guarantee the customer the best possible quality for a good price, but we find it equally important that our producers work under good social conditions earning their fair share.

Continuous product development is one of the key elements of our success. We are always searching for new concepts, new accessories and new ways of presenting our products in your shops. Ultimately, it is in our best interest that you are a satisfied customer!

Altogether, we deliver high quality products at an affordable price with outstanding and personal service. For more information on our products, please have a look at www.novina.nl.

from Irian Jaya
h. 55 cm Ø 28 - 29 cm

A279

Djembé, small covered with cortex
from Irian Jaya
h. 45 cm Ø 23 - 24 cm

The African djembé is a solo instrument in the traditional drum ensemble.

By playing the drum with both hands, different sounds can be created such as 'bass, slap & open'.

The djembé produces the highest sound in a drum ensemble.

Goatskin for small djembé with double ring

A263

Goatskin for medium djembé with double ring

A264

Goatskin for large djembé with double ring

A264

A263

A262

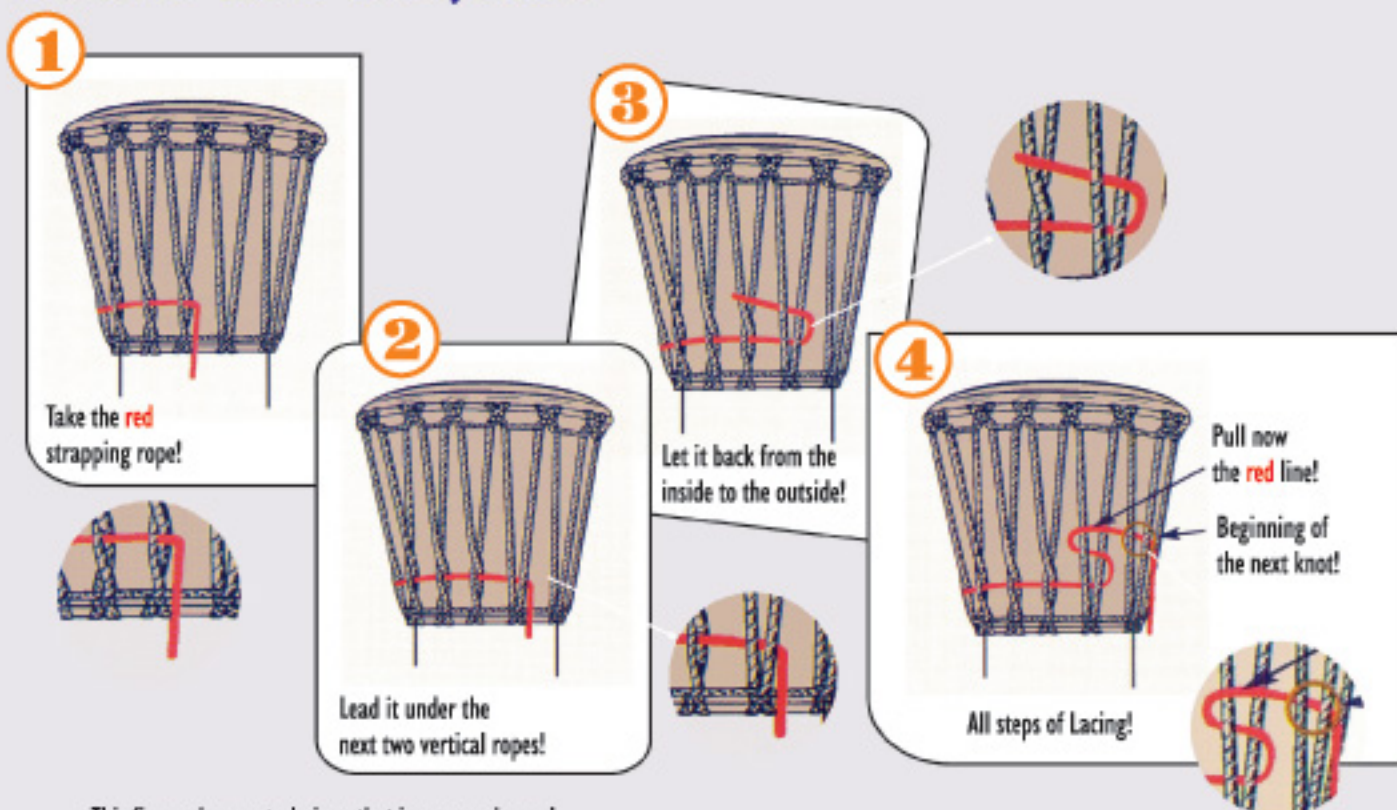

Available in the sizes

A262A = 22 cm	A263A = 27 cm	A264A = 32 cm
A262B = 23 cm	A263B = 28 cm	A264B = 33 cm
A262C = 24 cm	A263C = 29 cm	A264C = 34 cm
A262D = 25 cm	A263D = 30 cm	A264D = 35 cm
A262E = 26 cm	A263E = 31 cm	A264E = 36 cm

From now on it's easy to change the djembeskin with our new "double ring with skin" !
You just put the skin on top of the djembé and finish with vertical threads.

How to tune a Djembé

This figure shows a technique that is commonly used.
The skin is tuned correctly when you can push (using your thumb) the skin a little in the middle.
We recommend to tune before actually playing, and then releasing tension again afterwards

Didgeridoos made of fiberglass

The especially developed fiberglass didgeridoo is a novelty in the world of didgeridoos. Its sound is strong, earthy and comparable to the eucalyptus didgeridoo. It's also a piece of art and accessible to everyone.

Inside

The darbuka is a traditional Turkish drum.
Hold the instrument across the lap & play it
with the fingers.

Especially for educational purposes Novina assembled a set of different instruments that will inspire our future generation. All instruments are easy to play.
Set no. S001 contains 30 instruments + 1 basket. Both sets offer a wide variety of sounds.
